*In loving Memory of  
Jack Zitomer*

**Jack** quietly translated what he believed in morally and ethically, to how he behaved in the world. He believed in being an organ donor. He believed that if there was an obvious, and often not so obvious way to give something of yourself so that someone else could be safer, or healthier, or happier, you just did that thing.

Three times a year, for more than 8 years, **Jack** ran a blood drive at Temple Shaaray Tefila. For weeks leading up to each drive, he would tirelessly coordinate logistics with New York Blood Center and call every past and potential donor, urging them to show up and give blood. And of course, a donor himself, he would burst with delight when, after a successful drive, the donor numbers surpassed the prior drive, feeling like he had done something that mattered for people who needed it most.

**Jack** passed away last March from Pancreatic Cancer and so, didn't get his wish to be an organ donor. But he did leave a legacy of giving nonetheless, which I hope our community will continue.

Please consider donating in his honor and his memory.

With love from the Zitomer Family

Please remember to eat, drink, and bring your donor ID card or ID with name and photo. For full list of COVID-19 safety protocols, please visit [nybc.org/coronavirus](http://nybc.org/coronavirus).
